## 1 Get a head start on summer style!

Calypso St. Barth, the pricey bohemian-luxe clothing and accessories line, is coming to Target on May 1! Expect shorts, embellished tunics and tie-dyed flip-flops—all starting at \$12.99!

## 2 Pick the perfect shapewear!

If you're 5'7" or taller, most all-in-one body shapers aren't long enough to provide control in the hips and tummy as well as lift at the bustline. The solution? Buy two separate pieces to get a perfect fit: bike shorts or a shaping miniskirt on bottom and a cami or bustier on top.

## 3 Sneaky way to carry your essentials!

Ever stuffed a few bills—or your driver's license—in your bra before running out the door? Try a RackTrap instead! These smart little pockets are made of smooth fabric that nestles right inside your bra! (\$7.95 at TheRackTrap.com.)

## 4 Flip-flops that are good for your feet!

Love to wear flip-flops but miss having the support of a standard shoe? Good news! This spring, footwear companies like SOLE and Chaco are debuting thong sandals that are more ergonomic than—but just as cute and carefree as—traditional rubber flip-flops. For maximum support, look for "heel cups," which cradle and align your feet, and curved soles that mold to your arches.
